

WEEE Categories - Groups	Components (parts) of WEEE containing hazardous substances																	
 <p>Large household appliances (WEEE categories 1 & 10, excluding temperature exchange equipment)</p>	 <p>Possible presence of polychlorinated biphenyls (PCB) in capacitors</p>																	
 <p>Other appliances (WEEE Categories 2,3,4,5,6,7 and 9, excluding monitors and screens with cathode-ray tubes or gas discharge lamps)</p>	 <p>Lead (Pb), Cadmium (Cd), Mercury (Hg) in WEEE batteries</p>	 <p>Possible presence of bromine (Br) flame retardants in plastic parts</p>																
 <p>Heat exchange appliances (WEEE Categories 1- refrigerators, freezers, air conditioners, heat pumps)</p>	 <p>Possible presence of ozone depleting substances (CFC / HCFC / HFC) in the refrigerant circuit of old type refrigerators</p>	 <p>Possible presence of ozone depleting substances (CFC / HCFC / HFC) in the insulating material of the side walls of old type refrigerators (polyurethane)</p>																
 <p>Monitors with cathode-ray tubes (WEEE categories 3 & 4 - TV and computer monitors)</p>	 <p>Phosphorus and heavy metals as powder ingredients of the panel (front) glass of the screen (e.g., cadmium Cd)</p> <table border="1" data-bbox="725 767 931 887"> <tr> <td>• 3.96 % Al₂O₃</td> <td>79.5 % ZnO</td> </tr> <tr> <td>• 22.5 % BaO</td> <td>2.22 % SnO</td> </tr> <tr> <td>• 22.2 % SiO₂ sulfur</td> <td>28.2 % Y₂O₃</td> </tr> <tr> <td>• 1.57 % K₂O</td> <td>0.64 % CdO Cadmium</td> </tr> <tr> <td>• 0.27 % CaO</td> <td>1.08 % BaO</td> </tr> <tr> <td>• 0.17 % Fe₂O₃</td> <td>3.59 % SrO</td> </tr> <tr> <td>• 0.21 % Cr₂O₃</td> <td>3.09 % PbO</td> </tr> <tr> <td>• 0.37 % MgO</td> <td></td> </tr> </table>	• 3.96 % Al ₂ O ₃	79.5 % ZnO	• 22.5 % BaO	2.22 % SnO	• 22.2 % SiO ₂ sulfur	28.2 % Y ₂ O ₃	• 1.57 % K ₂ O	0.64 % CdO Cadmium	• 0.27 % CaO	1.08 % BaO	• 0.17 % Fe ₂ O ₃	3.59 % SrO	• 0.21 % Cr ₂ O ₃	3.09 % PbO	• 0.37 % MgO		 <p>High lead content (PbO) on the back of the display (funnel glass)</p>  <p>Possible content of potentially hazardous substances in panel (front) glass of the screen (Barium Ba, Strontium Sr)</p>
• 3.96 % Al ₂ O ₃	79.5 % ZnO																	
• 22.5 % BaO	2.22 % SnO																	
• 22.2 % SiO ₂ sulfur	28.2 % Y ₂ O ₃																	
• 1.57 % K ₂ O	0.64 % CdO Cadmium																	
• 0.27 % CaO	1.08 % BaO																	
• 0.17 % Fe ₂ O ₃	3.59 % SrO																	
• 0.21 % Cr ₂ O ₃	3.09 % PbO																	
• 0.37 % MgO																		
 <p>Flat Panels (WEEE categories 3 & 4 - TV and computer monitors)</p>	 <p>LCD Monitor Panel LCD Television Panel CCFL in metal holder CCFL in array mounted on rear tray</p>  <p>Mercury (Hg) in the backlight lamps of monitors</p>																	
 <p>Gas discharge lamps (WEEE Category 5)</p>	  <p>Mercury (Hg) content in lamps</p>
